Automated management
of tool material logistics

SOFTWARE, MECHANICAL, AND ELECTRICAL TECHNOLOGIES
IN AUTOMATIC DISTRIBUTION

DRS

Automated management
of tool material logistics.

- Automatic recognition of product loading
- Product inventory and warehouse management
- Traceability of incoming and outgoing movements
- Traceability of accesses
- Material reorder lists
- Automatic order generation

Immediate access for everyone,
at any time of the day, to consumable
materials.
Simple and intuitive interface,
reliability and security, with aesthetic
quality and design.

Automation.
The evolution
of logistics.

Mechanical Features

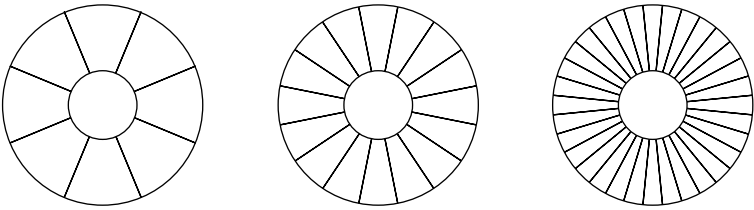

- The special motion transmission structure makes the system highly reliable and does not require specific maintenance.
- The warehouse is entirely built with treated steel to prevent rust, oxidation, and deformations due to temperature and/or weight.

Technical Features

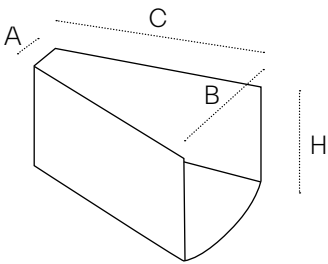

- Power supply voltage 220 volts
- Maximum power 500 watts
- 15" IP65 shielded touch screen
- PC with i3 processor
- WIFI or RJ45 connection
- IP55 protection rating
- Protected against access by solid bodies smaller than 1 mm in size
- Protected against water jets.

Dimensions

Height 1830 mm
Width 900 mm
Depth 890 mm
